Date of request	2026-04-15 20:55:32
Machine	Z13 Sawatec SM-200 - manual coater line for photoresists
Process flow	apilehvar_2026-03-17_Si-NWModified.pdf
Step	step1
Comment	instead of making markers with ebeam, lithography with MLA would be easier and more convenient
Trainer	jeremy.pernel@epfl.ch
Trainer comment	Hello, we will meet in front of the SM200 in zone 13. Unfortunately we won't be able to do the exposition the same day as the MLA is not available.

Date of request	2026-04-15 20:57:07
Machine	Z16 Heidelberg MLA150 - direct laser writer
Process flow	apilehvar_2026-03-17_Si-NWModified.pdf
Step	step1
Comment	Instead of making markers with beam, lithography with MLA would be easier and more convenient
Trainer	jeremy.pernel@epfl.ch
Trainer comment	Hello, we will meet in front of the MLA 1 in zone 16. Please have your design ready on CMi transfer as well as your wafer(s) coated and in a black container. Please be on time as the timing is pretty tight. The training should take one hour
